

Shipping Info

We pay all shipping/delivery costs both ways on all regular lab work. Ask us for our fee schedule for details.

To keep our cost as low as possible: all pick-ups and deliveries beyond 25 miles from our lab are completed by UPS or courier service. We supply your office with pre-printed UPS shipping labels (with all of your info on them), or all of the supplies for a courier service, as well as all case-boxes, bio-bags and other case-related supplies.

We provide overnight shipping service to and from our lab for all dental offices that are located within Zone 1... see map below.

Total Case Lead-times with Shipping:

On the map at right, determine the zone color & number in which your practice is located, then look at the matching numbered zone below for the total lead time for various types of cases from your office.
